Lagos, Nigeria

CAREER OBJECTIVE

A dedicated software engineering graduate with a strong foundation in Back-End Engineering and Database Development, skilled in Nest JS, SQL, MySQL and Software Architecture to contribute meaningfully. My problem-solving mindset, deep curiosity, and commitment to continuous learning drive me to research, understand, and implement innovative solutions. I aim to handle real-world challenges, collaborate with professionals in a global environment, and gain hands-on experience in large-scale, impactful projects.

EDUCATION

Babcock University, Illishan-Remo, Ogun State

B.Sc. Software Engineering.

JANUARY 2021 - JUNE 2025

- Taken courses in Database Management & Design, Data Structure and Algorithm, Software Architecture and other related courses.
- Led and managed my undergraduate final year project as Project Manager, successfully coordinating team efforts and ensuring timely delivery, resulting in an 'A' grade for the project.

LEADERSHIP AND VOLUNTEER EXPERIENCE

- Organized and conducted a tutorial class on Database Management and Design for 300-level undergraduate students, engaging over 30 participants and fostering a deeper understanding of core concepts through interactive learning which led to improved performance of the student in their examination.
- Co-organized and served as a speaker for a university-wide Health Programme, engaging an audience of over 3,000 students and contributing to the event's success through effective coordination and impactful communication.

PROJECTS EXPERIENCE

ProjectUserLog (PHP + MySQL)

- Designed and built a secure user authentication system with email verification, password reset, and role-based access control (user/admin).

TECHNICAL SKILLS

Postgresql, Nest JS, Javascript, Python, SQL, mySQL, Docker, Git, Github, Software Architecture, Database Modeling

SOFT SKILLS

Teamwork, Time Management, Attention To Details, Effective Communication, Problem-solving & Critical Thinking.

INTEREST

Financial Market Research (Digital Assets & Stocks), Listening to Music, Exercises, Tutoring, Reading.

LANGUAGE

English (Fluently)

- Integrated session management, file uploads, and admin dashboards to provide a full-featured account system and session timeout handling.
- Implemented backend architecture using PHP with prepared statements
- Optimized system for clean architecture, separating concerns across authentication, admin management, and user dashboards, following industry best practices.
